

**Beaver Country Day School
Athletic Center**
Chestnut Hill, MA

Following completion of the new Visual and Performing Arts Center at Beaver Country Day School, HMFH was hired to design a new gymnasium for the 16-acre campus. The 23,300 sf facility was constructed adjacent to the existing 15,000 sf gymnasium and includes two practice basketball courts and a full-size competition court with bleachers for 650 spectators.

New boys and girls locker rooms, with separate facilities for middle and upper school students replaced the original locker rooms, which were converted to athletic team locker rooms. The new facility also includes offices for coaches and the athletic director, fitness and training rooms, and a new entry lobby.

As part of the new athletic center project, the surrounding site was redesigned, creating a series of terraces and a more gradual slope to allow easier pedestrian and vehicular access to the adjacent upper playfields.
